INSTRUCTIONAL DESIGNER | DEVELOPMENT SPECIALIST

- Instructional designer, educational researcher and project lead with an MEd, PhD and more than ten years of experience developing evidence-informed learning across healthcare, higher education and international education.
- Leads educational technology projects from needs assessment and functional requirements through conceptual design, simulation and multimedia production, LMS implementation, quality assurance, evaluation and continuous improvement.
- Combines pedagogical judgement with technical fluency in enterprise and open-source learning platforms, web-based learning, UX/UI, standards, interoperability, learning analytics and software-enabled prototyping.
- Experienced consulting clinical faculty and subject matter experts, translating requirements for technical teams, developing training and documentation, and coordinating and supervising multidisciplinary contributors.

CORE EXPERTISE

- Educational technology project development: needs assessment, requirements, scope, workflows, timelines, budgets, risks and quality assurance
- Instructional and technical solution design: storyboards, mock-ups, UX/UI, virtual-patient-style simulation and assessment
- LMS administration and architecture: Brightspace, Moodle, testing, standards, interoperability, analytics and support
- Faculty and clinical consultation, facilitation, workshops, stakeholder liaison and collaborative review
- Online, blended and facilitated learning: adult education, roleplay, structured practice and performance feedback
- Web and multimedia production, accessibility, evaluation, technical writing, training and continuous improvement

TECHNOLOGY & PRODUCTION

Learning platforms and standards: D2L Brightspace • Moodle administration and architecture • LearnDash • SCORM/xAPI • WCAG-informed accessibility • LMS testing and interoperability

Authoring and multimedia: Articulate Storyline and Rise • Adobe Captivate • H5P • Photoshop • Illustrator • Premiere Pro • Audition • After Effects

Technical design and analysis: needs and requirements analysis • storyboards and mock-ups • UX/UI • workflow design • LMS data extraction • quality assurance and troubleshooting

Software-enabled practice: Microsoft 365 • Teams • SharePoint • ChatGPT • Claude • OpenAI Codex • Microsoft Copilot for prototyping, software development and technical problem-solving with careful human review

PROFESSIONAL EXPERIENCE

RESEARCH ASSOCIATE / INSTRUCTIONAL DESIGNER

February 2020–Present

Children's Hospital of Eastern Ontario Research Institute (CHEO-RI)

- Lead webinar-based and self-directed ADHD diagnostic-interview training for healthcare professionals, consulting clinical faculty, academic partners and learners to define educational and technical requirements.
- Project lead from needs assessment and conceptual design through to storyboarding, multimedia production, Brightspace implementation, delivery, evaluation and publication.
- Establish scope, priorities, timelines, responsibilities and review processes; lead working meetings and coordinate clinicians, instructors, actors, developers, researchers, contractors and international partners.
- Monitor budgets, contracts, production schedules, dependencies and deliverables; document decisions, communicate risks and adapt plans when requirements or timelines change.
- Translate clinical standards and specialist expertise into aligned outcomes, user flows, scripts, virtual-patient-style scenarios, interactive activities, assessments, scoring frameworks and learner and facilitator resources.
- Designed and developed 48 actor-based video simulations incorporating structured practice, diagnostic rating, troubleshooting and feedback to build decision-making and adaptive expertise.

BENJAMIN HUDSON

Ottawa, ON | (613) 265-4904 | b3nhudson@gmail.com | linkedin.com/in/b3nhudson | Prepared to relocate to Vancouver

- Lead Brightspace implementation and quality assurance across course architecture, H5P media, completion logic, assessment and learner flow; work with the University of Ottawa Teaching and Learning Support Service and developers on technical requirements, testing and support.
- Extract and analyze LMS and embedded-interaction data, including detailed time-on-task measures, and coordinate a completed mixed-methods non-inferiority trial comparing web-based and instructor-led training, now being prepared for publication.

FREELANCE INSTRUCTIONAL DESIGNER / CURRICULUM DEVELOPER

February 2019–December 2022

Theatre for a Change, United Kingdom and Malawi

- Led curriculum development for the UK FCDO-funded Leave No Girl Behind programme, producing the Tisinthe Girls' Club manual, facilitator guidance and structured participatory activities.
- Developed a separate Life Skills activity manual for Malawi's Ministry of Education containing 90 classroom-ready participatory learning activities.
- Developed accessible curricula, workbooks, self-study materials and original multimedia resources for GIZ-funded programs addressing gender-based violence and emergency contexts.

INSTRUCTIONAL DESIGNER

January 2019–July 2019

University of Ottawa Refugee Hub / Global Refugee Sponsorship Initiative

- Designed blended legal and policy education within the University of Ottawa Faculty of Law environment, working with the Refugee Hub, UNHCR, IRCC and subject matter experts.
- Translated complex refugee-sponsorship requirements into clear online learning, facilitator guidance and practical resources; supported requirements gathering, testing, stakeholder review and revision before pilot delivery.

MONITORING, EVALUATION AND LEARNING ADVISOR

October 2018–December 2018

World University Service of Canada / Uniterria, Femina Hip, Tanzania

- Developed qualitative and quantitative assessment tools, reviewed the Fema Club mentor-training program, and drafted the organization's annual report and strategic plan.

INTERNATIONAL TRAINER AND CURRICULUM DEVELOPER

January 2018–April 2018

Voluntary Service Overseas / Theatre for a Change, Malawi, Eswatini and UK

- Designed curriculum and delivered a three-week facilitator-development program for 20 youth peer educators working with the Red Cross and FLAS; authored Innovative Approaches to Adolescent and Youth Sexual and Reproductive Health.

CURRICULUM, TRAINING AND ASSESSMENT ADVISOR

October 2014–December 2016

Theatre for a Change, Lilongwe, Malawi

- Designed and implemented an organizational curriculum-development and quality-assurance process using ADDIE, producing standards, templates, manuals, workshops and learning resources across education and social and behavior change communication programs.
- Designed and delivered facilitator training for staff, teachers and community educators; developed EGRA/EGMA study guides and built and administered the organization's Moodle learning environment.
- Project managed the national interactive radio project Nzotheke, coordinating program design, production, stakeholders, budgets and broadcast deliverables.

ASSISTANT LECTURER

2012–2015

University of Kent, School of Arts, Canterbury, United Kingdom

- Designed, taught and assessed undergraduate courses in theatre, performance and digital media through lectures, seminars and practical workshops, using aligned activities, assessment and structured feedback.

EDUCATION

Master of Education (MEd), Teaching and Learning - University of Ottawa | 2020

Doctor of Philosophy (PhD), Drama - Practice as Research - University of Kent, United Kingdom | 2014

Master of Drama (MDrama), Drama - Major: Multimedia Performance - University of Kent, United Kingdom | 2009

Doctoral research examined how media and technology augment live performance and reshape participation, human interaction and the audience-performer relationship.
